Site Plan Review

Barry Rivet, representing Hamilton College, and Todd Kogut, from Delta Engineering, appeared before the Board requesting review and approval of a proposal to install a new sidewalk along College Hill Road. The purpose of the project is to relocate the sidewalk outside the County highway right-of-way, and to improve pedestrian safety. The project will also include installation of new lighting, consistent with the fixtures used elsewhere on campus.

Plans have been prepared and submitted by Delta Engineering and were reviewed by the Board. Board members had no concerns with the proposed project.
